MEET TO BE SETTLED TONIGHT.

ENTHUSIASTS WILL GATHER
TO DISCUSS THE SUBJECT.

FORMER MANAGER OF INDIANA
POLIS SPEEDWAY HERE WITH
PLANS FOR TWO MEETS IN
THE SPRING.

The question of whether Daytona
will have an automobile race meet
in the spring of 1911 will probably
be settled at a meeting of the auto-
mobile owners, enthusiasts and busi-
ness men at the club house of the
Florida East Coast Automobile As-
sociation at 7:30 o'clock this evening.

At this time the local people will
meet President R. M. Bond of the as-
sociation and E. A. Moross, formerly
in charge of the Indianapolis speed-
way meets, who has been for several
days in Jacksonville working up en-
thusiasm for a meet in that city.

The plan proposed by Mr. Moross,
and the one which he will present at
the meeting tonight is to hold two
meets in the spring, one at Jack-
sonville and one at Daytona, one fol-
lowing the other about ten days. Mr.
Moross has been connected with au-
tomobile race meets for a number of
years and has attended all of the big
meets on Daytona beach. He has
seen some records made here, which
have held against all efforts to
lower them in other places and he is
anxious to see another successful
meet on Daytona beach.

When Mr. Moross came south to
study the situation and sound the
feeling in regard to holding a race
meet during the winter or in the
spring his idea was that one meet
would be sufficient, but he has since
come to the conclusion that two
meets could be made more successful
and by holding the one on Daytona
beach in connection with the one
in Jacksonville the expenses for the
Daytona beach events can be
lessened.

Before coming south he visited a
number of manufacturers and racing
men and had 21 cars pledged as en-
tries. Since he arrived in Jack-
sonville he has received numerous as-
surances that a number of others
will bring or send cars here to par-
ticipate in the events and indications
are that if the two meets are ar-
ranged they will have the largest
number of entries of any meet ever
held in the south.

At Jacksonville he found the au-
tomobile men enthusiastic over the
prospects of a meet and they are
now trying to raise the necessary
money to back the affair. It is fig-
ured the least amount for which the
races could be arranged in Jack-
sonville will be \$6,500, while if Daytona
holds a meet in connection with the
one at Jacksonville, with the cars al-
ready shipped to that point, the ex-
penses for such an event here will be
about one-half as much.

It was not known until today just
what arrangements for discussing the
subject of a race meet here could be
made and an effort has been made to
teach all the people interested by
telephone to inform them of the
meeting tonight. However, all mem-
bers of the Automobile Club are

requested to attend the meeting at
the club house this evening.
The pros and cons of the situa-
tion will be thoroughly discussed at
that time and the question of whether
an automobile race meet will be
held here this season will probably
be definitely settled.

HELPLESS SCHOONER TOWED IN.

MEN INSANE FROM HUNGER;
TEN SENT TO HOSPITALS.

AMERICAN SCHOONER FOUND
DRIFTING ON SEA WITH COM-
MANDER GONE AND TWO SAIL-
ORS DEAD BY SUICIDE.

PUERTO CORTEZ, Honduras, Dec.
21—With two of the crew insane
from hunger and thirst, the comman-
der gone by reason of having been
washed over board and two of the
sailors dead by reason of having com-
mitted suicide, the American three-
masted schooner Doris was towed in
here today by the cruiser Tacoma,
which had picked up the schooner
while it was drifting in the teeth
of the terrific storm, which has been
raging for several days.

Immediately after the schooner
had been brought into the harbor
here ten members of the crew were
taken to a hospital where they are
in a critical condition.

The Doris was bound from Pensa-
cola to Belize, loaded with lumber.

322 MILES IN 5 HOURS;
FLIGHT RECORD MADE.

PARIS, Dec. 21—Paul Legagneux
made an aeroplane flight of 322 miles
in five hours and 15 minutes today,
breaking the world's record.

*New shipment of Hand Cro-
chet Worsted Slippers at Peck-Hen-
dricks.

Dr. Carey P. Rogers, the celebra-
ted Jacksonville surgeon, who was
called to this city yesterday after-
noon on professional business, re-
turned to Jacksonville by the early
morning train today.

GERMAIN IS A REAL WIZARD;
CHANCE TO SEE MUCH MAGIC.

MAN WHO GIVES ENTERTAIN-
MENT HERE FRIDAY SAID TO
BE THE PEER OF KELLER AND
HERMANN.

Mystery upon Mystery. Magic;
nothing but magic. Germain's enter-
tainment is one mammoth illusionist's
bouquet. The word, "illusionistic,"
is good—Germain's entertainment is,
that's certain. Germain carries a
truck load of baggage, containing gor-
geous draperies and trunks of para-
phrenalia.

Germain is a master magician in
the art of mystifying deception. His
program is full of bewildering, mys-
terious and astounding demon-
strations. He is also witty and humorous
and is thus able to keep his audience
in a state of enthusiasm and bewil-
derment.

In many of the larger towns he
has been pronounced the peer of
Keller and Hermann, and gives prom-
ise of even greater doings than
either of the other two.

He will appear at the new Daytona
Theater next Friday evening at 8:15
p. m., and those who have not al-
ready secured their reserved seats
can reserve them at Hankins'.

GEE WHIZ!

BUT IT'S COLD SOME. Now don't procrastinate, but GET YOUR HOUSE HEATED.

300 MEN ENTOMBED IN MINE AS RESULT OF EXPLOSION.

LITTLE CHANCE FOR RESCUE;
WORKS A ROARING FURNACE.

WITH 337 MEN IN THE WORKS
WHEN EXPLOSION OCCURS 15
SURVIVORS AND THREE DEAD
HAVE BEEN REMOVED.

LONDON, Dec. 21—The worst dis-
aster in the history of English mining
during the last decade happened to-
day in the Hulton colliery near here,
where a terrific explosion trapped the
miners 700 feet below the surface.

It is believed 250 to 300 are dead
as a result of the explosion.

There were 337 men in the mine
at the time of the explosion and
eight hours later but 15 survivors had
been taken out of the works and
three dead bodies had been removed.

Almost immediately after the ex-
plosion the mine was turned into a
roaring furnace by the fire which
followed and this, with the fatal fire
damp, stopped all rescue work.

Great billows of fire and smoke are
spouting from the mouth of the pit,
hundreds of feet into the air and
the explosions in the mine continue.

Soldiers have been rushed to the
scene of the disaster and are guard-
ing the entrance to the mine, keep-
ing back the maddened men, who
have been rushing toward the pit in
vain efforts to rescue their comrades
entombed in the earth below.

TWO STEAMERS FOUND
BOTH SAFE IN PORT.

LAS PALMAS, Dec. 21—The two
missing steamers, the Irma Woerman
with the disabled Ingbert in tow, ar-
rived here safely today.

We propose that you give us a
trial the next time you need grocer-
ies. We will give you such genuine
satisfaction that we will be awarded
with your future patronage. You
can't miss satisfaction here, because
both quality and economy are cer-
tainities.

OF ILLINOIS CENTRAL RAIL-
ROAD LINES.

NEW YORK, Dec. 21—Charles
Markham, president of the Gulf Re-
fining and Gulf Pipe Line companies
of Pittsburg, was today elected pres-
ident of the Illinois Central, succeed-
ing James Harahan, who has re-
signed.

*A nice Scarf or veil makes an ac-
ceptable gift. Peck-Hendricks.

E. F. Oates, who accompanied
Raymond G. Keeney on a duck hunt-
ing trip aboard the latter's yacht,
"Seantic," last Saturday, returned
Tuesday afternoon from Oak Hill
with Mr. and Mrs. J. B. Moore in
their automobile, leaving Mrs. Oates
with Mr. and Mrs. Keeney at Castle
Windy on the peninsula opposite
Oak Hill. They found the shooting
very good and bagged a number of
ducks.

THE RAINY DAY.

Prepare for the Rainy Day for it
will surely come and may catch you
in circumstances that will prove a
great hardship to yourself and family.
If you will take care of the pennies
they will soon make dollars which
will brighten the cloudy days of
the future. Begin today and this
bank will help you put a silver lining
behind each dark cloud at the rate
of four per cent of all your idle mon-
ey. Do you know that just one
dollar put in our bank at 4 per cent
interest, compounded each year, will
in two hundred years amount to
four hundred and sixty-one dollars
and seventy cents. Your money in
our bank will grow just like corn
does. Just put a dollar in today and
then in two hundred years if you do
not happen to be here, your grand-
child can call and get \$461.70.

LIVE OAK CHAPTER O. E. S.
HOLDS SPECIAL MEETING.

Live Oak Chapter No. 1, Order of
the Eastern Star, held a special meet-
ing Tuesday evening for the purpose
of initiating candidates into the mys-
teries of the order.

There was a good attendance, be-
tween fifty and sixty members and
visitors being present. The degree
work was followed by an appetizing
repast served especially in honor
of returning members and visitors.

A short business meeting will be
held next Tuesday at 4:00 o'clock,
an afternoon session being necessary
owing to the fact that the night of
Dec. 27, St. John's Day, is a regu-
lar meeting night of the Masonic
Blue Lodge.

Dr. Henry Mitchell and wife arrived
Tuesday afternoon from Asbury Park,
N. J., and proceeded to their winter
home at Daytona Beach.

MEXICAN REBELS VICTORS; FEDERAL ARMY IS ROUTED.

GOVERNMENT TROOPS DEALT
A MOST CRUSHING DEFEAT.

REBEL SOLDIERS OCCUPY NAT-
URAL FORTIFICATIONS AND
MOW DOWN FEDERALS AS
THEY APPROACH.

CHIHUAHUA, Mexico, Dec. 21 —
The Rebels have scored another ov-
erwhelming victory over the govern-
ment troops in the battle around Mal
Falzo, details of which reached here
today.

The Revolutionists swarmed down
on the command of General Navar-
ros, which sent into the battle
after the Federals had apparently
the better of the engagement for
two days about Pedernales and Guer-
reros.

The government army was practi-
cally wiped out and during the
fighting 1,200 were either killed or
wounded, of which it is estimated
General Navarros lost 1,000.

The government troops numbered
about 1,500 and the insurgents about
half that many. During the fighting
the Federal soldiers were mowed
down by the Rebels, who were en-
trenched in natural fortifications and
were little exposed and in little dan-
ger.

The battle raged all day Saturday
and far into Sunday.

TWO LINERS COLLIDE;
ONE BADLY DAMAGED.

NEW YORK, Dec. 21—The Ger-
man liner Koenigen Louise and the
French liner Florida collided off the
quarantine station this afternoon and
the Florida was badly damaged. No
one was seriously injured.

THREE CRUSHED TO DEATH;
SEVENTEEN PEOPLE WERE

NINE LARGE BUILDINGS DE-
STROYED WHILE FIREMEN
FIGHT IN COLD WHICH TURNED
THE WATER INTO ICE.

CINCINNATI, O., Dec. 21—The
most destructive fire ever experienced
in the city of Cincinnati swept
through the manufacturing district
this morning, costing three lives and
causing damage estimated at \$2,500,-
000. The list of injured as a result
of the blaze has reached 117.

The fire originated at the corner
of Ninth and Sycamore streets in
the plant of Krippendorf & O'Neill,
shoe manufacturers, and raged for
seven hours.

The combined efforts of the entire
fighting forces of the city and all
the suburbs were required to subdue
the flames and announcement was
made at 9:30 o'clock this forenoon
that the fire was believed to be under
control.

At that time nine large buildings
had been destroyed, among them the
Krippendorf & O'Neill shoe manu-
facturing plant, the United States Leath-
er company's building and the Syc-
amore stables.

The dead men are Morgan Geiger,
a fireman, who was crushed to death
by a falling wall while fighting the
flames; Robert Greer, also a fireman,
killed by a falling wall; an unident-
ified man, killed by falling debris.

The biting cold numbed the fire-
men in their work of fighting the
flames and they were frozen into hu-
man ice chunks by the water which
covered them. Much difficulty was
experienced by the firemen because
the water froze almost as rapidly as
it was thrown toward the buildings
and haags from the ruins in huge
icicles.

CONRAD FOR COUNCILMAN;
PETITION IN CIRCULATION.

BUSINESS MEN SEEK TO INSURE
ELECTION OF ALDERMAN FOR
FOR ANOTHER TERM IN THE
CITY COUNCIL.

A petition asking that E. T. Con-
rad again make the race for election
as member of the Daytona city coun-
cil is being circulated among the busi-
ness men of the city and is being
freely signed. Mr. Conrad has made
an efficient member of the council
and there will probably be little op-
position to his re-election.

President R. M. Bond, of the Flor-
ida East Coast Automobile Associa-
tion, is in the city to attend a meet-
ing of the association this evening.

HEADQUARTERS FOR HOUSE FURNISHING

Despland with his parents to this city the day after Christmas to spend the Christmas holidays.

Barnes the Novelty Man has a big lot of Christmas toys, fancy goods, decorations and novelties. 16-6t.

A Billiard arrived Tuesday afternoon and joined his family. He presented him to Daytona, at their home on South Ridgewood avenue.

*Christmas cigars at Vet Cave's. 16-5t.

P. J. Hawley was engaged Tuesday in transferring a carload of cement from the F. E. C. Ry. depot to his equine shell pit at Holly Hill preparatory to making shell brick for a residence to be erected at Holly Hill.

*FOR RENT—Furnished residence, corner Ridgewood and Volusia avenues; eight rooms and bath. Apply to S. F. GOVE or my agent. 12t.

Cpl. J. D. Robertson, having several personal friends located at The Ivy Lane Inn and others who will be there later, has removed to that pleasant hostelry for the winter.

*Santa Claus has his headquarters this year the same as usual at the Barnes Novelty store. 16-6t.

Thos. B. Stout returned from New Smyrna Tuesday afternoon and will be in the Foster Company store here for the balance of the winter, having closed the Foster store at New Smyrna last Saturday.

*Chantfour desires position, four years experience. References. Inquire Daily News. 16-5t.

Miss Fannie Bohne, a fashionable dressmaker from Whitehouse, Long Island, N. Y., arrived Tuesday afternoon and has rented rooms for the season over the Woman's Exchange on Volusia avenue.

*Fountain pens, stationery, perfumes, brushes and combs in Christmas packages. Gille's Pharmacy. 16-6

THE DAYTONA SERIES OF HIGH CLASS ATTRACTIONS FOR THE WINTER SEASON.

Sned and Morris, managers of the new Daytona Theater, are endeavoring to treat the people of Daytona and vicinity with high class attractions and toward this end have closed a contract with the Lyceum System securing six of the best Lyceum attractions that can be seen on the stage today.

The course consists of Germain, the wizard and magician; Round's All-Star Ladies' Orchestra, consisting of twelve pieces; Sidney Landon, character artist and humorist; Rose Jones, sculptor and cartoonist; the celebrated LaDell Fox Concert Company, of Canada, and the well known Chicago Glee Club, a quartette of both vocal and instrumental fame.

Season tickets for the six courses including reserved seats are \$2.50. Mr. Sned states many business people and influential citizens of Daytona have subscribed for these tickets and at the last moment they refuse to take the tickets. Now it is up to the people to give the management of the new Daytona Theater better support, or high class attractions and entertainments will have to be a feature of the past.

It is just three more days before the first Lyceum number. Germain, the wizard, will open the Lyceum course next Friday evening, and those who have not secured the season tickets should do so immediately so as to secure a good reserved seat.

These six numbers have been secured at a very great expense and it is now up to the people to prove whether they prefer high class attractions or cheap tent shows.

The Writers.

W. W. Jacobs was in the British civil service before he made his mark as a novelist.

The London home of Katherine Cecil Thurston, the author, is visited every summer by many American admirers of her novels.

Madison Julius Cawein, the poet, was born in Louisville, Ky., in 1895 and was educated in the public schools of that city. His first book of poems was published in 1897.

FORCES IN BIG CIGAR FACTORIES ARE BEING CONSTANTLY INCREASED BY WORKMEN FROM CUBA.

TAMPA, Dec. 21.—The steamer arriving yesterday afternoon from Havana and Key West was crowded to its utmost capacity, nearly all of the passengers being cigar makers returning from those cities. These people have returned to Tampa with the determination to go to work—they could have no other purpose in coming here. It may be reasonably expected that each steamer arriving for some weeks to come will be equally crowded, and the inevitable conclusion is that the manufacturers will soon have all the cigar makers they need.

DINNER GUESTS.

Bad Enough to Be Late, but to Be Too Early is Unforgivable.

It is an accepted aphorism that one should never be late at a dinner or a dinner. Tardiness is unpardonable, but the converse is also true. If it is an offense to be late it is unforgivable to be too early. This refers solely to the dinner, since duels are affairs of the past.

Overhaste may be flattering, but it is also inconsiderate. If the dinner is important enough to be called a "function" and the house in which it is given is sufficiently large to be rated as a mansion the early guest may find a hostess still in her maid's hands. If instead a cottage and a simpler repast await one the housewife may herself be putting the last necessary touches to the salad. In either case the hostess feels a warm personal approval and an ability for self praise if the coming guest is a little tardy. Should the soup be cold or the roast dry it is not her fault; she was on time.

Can anything be more harassing than the "you-don't-mind-me-dear" type of woman who always comes half an hour early and always wants to "help"? Can anybody worship one's household gods, turn away the nicks, display the gleaming side in the profaning presence of a comparative stranger? A despairing hostess said recently:

"When I have just men coming I spend my soul on the cooking; when it's women I put my extra efforts into burnishing the house; when it's both I almost kill myself, and when they come too early I want to lie down and die."

"The quality of mercy is not strained."

Not at All Peculiar.

In the trial of a woman recently in one of the English courts a witness was asked to repeat a conversation that she had with her husband. Objection was made that the question should not be answered because the conversation was private in its nature. The judge then asked the witness whether anybody except herself and husband was present. She replied that her mother and the husband's mother were, whereupon the judge remarked: "It appears that both mothers-in-law were present. I shall therefore rule that the conversation was public."

The Diving Bell.

The diving bell was not mentioned before the sixteenth century. Two Greeks in that century (1538) gave an exhibition before Charles V., descending into water of considerable depth in an inverted large kettle. They took down with them burning lights. The men returned to the earth level without being wet. The light was still burning.

Boots in Russia.

All Russians have a weakness for handsome footwear, and the result is that there are more pairs of showy boots worn in the czar's empire than anywhere else on earth. This preference extends to the women as well as to the men.

Set not thyself to attain much rest, but much patience.—Thomas a Kempis.

What's the Difference

Between stationery and stationery?

A difference of one letter.

But if your stationery is well printed, up to date and businesslike, such as we can supply you, your trade will not be stationary.

Good Stationery, Letter Heads, Billheads, Statements, Circulars, Etc., Keep Business ON THE MOVE.

That's the kind we print.

THE STEARNS & FOSTER MATTRESS
(NAME ON EVERY GENUINE MATTRESS)

SHOWS YOU WHAT'S INSIDE. YOU DON'T HAVE TO BUY ON FAITH. COME IN AND LOOK THROUGH THE LACED OPENING (PAT. APPLIED FOR) AND READ THE INSIDE GUARANTEE.

IMPORTANT TO KNOW WHAT'S INSIDE THE MATTRESS YOU GET TO INSURE REST THAT IS HEALTHFUL & COMFORTABLE

Stearns & Foster Mattresses are Comfortable, Durable and Sanitary; not only because of the way they are made, but because of the materials in them.

No patented process of mattress-making will produce a quality mattress out of poor cotton or cotton improperly handled.

Stearns & Foster Mattresses are made of clean, sanitary cotton; felted into hundreds of little webs, forming many springy, buoyant layers, standing nearly three feet high. These layers are then laid by hand and compressed to one-sixth of their original height and encased in the ticking; then tufted to just the proper tension, so as to be soft, yet firm, half yielding to your figure, yet supporting it in perfect relaxation.

Made in the best qualities of Satin Finish, dustproof tickings WITHOUT EXTRA CHARGE.

Four Grades of Superiority

Anchor.	Windsor.	Lenox.	Style A.
\$10.50	\$13.50	\$16.00	\$22.50

When you buy a Stearns & Foster you get the best Mattress value offered. Come in today and ask to see these exceptional Mattresses. We'll gladly show them. A positive guarantee on every Mattress.

A Stearns & Foster is a very Comfortable and Economical Mattress to buy.

Don't Lose Time

Emmerich GUARANTEED FEATHER PILLOWS

Every "EMMERICH" Pillow has attached a patented envelope tag, in which is inserted the

EMMERICH GUARANTEE INSURANCE CERTIFICATE,

an insurance policy guaranteeing the pillow to be filled with thoroughly cured, cleansed purified and odorless feathers, free from all animal matter, dirt, disease germs, and all unhealthful and disagreeable odors. All "EMMERICH" Pillows are guaranteed to give satisfaction, or money refunded.

worrying about what to give for Christmas presents. : : :

Come in, we will find you something on short notice which will be highly appreciated because of its usefulness. : : :

Bingham & Maley Co.
HEADQUARTERS FOR HOUSE FURNISHINGS

"Quick Meal" Stoves do not get red hot all over like the old-fashioned, cumbersome, cast iron Cook Stoves. The "Quick Meal" cooks the dinner in the time it takes a coal fire to start. It makes no dirt nor dust, no soot nor smoke, no smell nor ashes. It does its work cheaper, quicker, cleaner and ever so much easier.

It is strange, but some women seem to prefer old methods and deprive themselves of modern comforts, which they might as well enjoy.

Why should any woman stand over a red-hot cook stove in a hot kitchen during these hot days? Keep yourself and the kitchen cool, and drive that drudgery from your home—and better do it to-day.

SILK HOSE

Lord & Taylor's "GIVE" the Standard History of this country, 10c, 15c and 25c.

HOLYPROOF HOSE

ONE YEAR TO FINISH EXTENSION.

CHEERFUL REPORTS MADE
OF PROGRESS OF WORK.

KEY WEST PEOPLE BELIEVE
THAT CHRISTMAS, 1911, WILL
SEE COMPLETION OF THE
GREAT WORK.

KEY WEST, Dec. 21—Reports from all along the extension show that remarkable progress has been made during the past few weeks on the Florida East Coast line between this city and Knights Key dock and that all indications point to a very strong possibility that Christmas, 1911, will bring the Flagler line into this city and that cars will be running.

The great stretch of piers across Moser channel was completed this week, and an increased force is now busy erecting the giant drawbridge there. While this is being done, the forces in that section are working day and night to connect Knights Key to Pigeon Key, and close the little gap on the other side of Little Duck Key.

This looks like three month's work and at the end of that period, work trains will be run from the main line across the long stretch over Moser channel and Pacit channel, to the end of the construction, and then the nine thousand feet of arches will be connected as rapidly as possible.

It is expected that a goodly part of the concrete work of the arches will be done at that time, and the filling in will be a matter of just how long it takes to haul and dump the filling. About this time the twenty odd piers from Bahia Honda to West Summerland will be commenced, and it is expected the Coe forces and the Smiley forces will meet on West Summerland, Engineer Coe having crossed the great waterways and Engineer Smiley the keys and small waters between Boca Chica and West Summerland.

There will be very little temporary work done again. It may be necessary to erect some over some small water crossings, but the result of the last hurricane has settled the temporary question emphatically.

When the trains run down to this city, they will run on permanent work that will stand any sort of hurricane, and will be as safe as the mainland.

Further up the line, Division Engineer Wilson and his forces are removing all temporary work and erecting permanent structures. There is very little danger up that far from the hurricane, but the management when they open the line, seem determined to be sure they have the strongest and safest line that money, trains and persistence can produce.

UNIQUE SIGN OVER BOOTBLACK STAND.

A sign over the bootblack stand beside Clark's stationery store has been attracting considerable attention since it was installed recently. It certainly is unique in spelling and design but needs to be seen to be appreciated.

Following is a copy of the lettering done in colors and surrounded by an ornamental design in ferns and leaves:

"Ask J. T. Anderson for your Polley an Mism. letoe an Ceedder. Get it Here."

His Christmas Gift.
The following story is told of a little boy, three years old, who lives in Atlanta:

His mother had been telling him the story of the birth of Christ. The next morning he went to the trunk which contained his clothing, took out a cloak and then put his cap on.

"Where are you going?" he was asked.

And the little fellow replied: "I'm going to God, and you have all got to go with me. I've got to take that poor little baby some Santy Claus!"

His Impression.
Mrs. Knicker—Now, will you remember everything, John? Knicker—Yep. I'm to turn the flowers out at night and sprinkle the cat—Harper's Bazar.

Dec. 21 In American History.
1620—The pilgrims landed on Plymouth rock and founded the first permanent English settlement in New England.

1690—Sir Edmund Andros, British colonial officer, assumed the governorship of the dominion of New England. His arbitrary measures led to a revolt in 1689, and he was deposed by force.

1688—James Edward Oglethorpe, founder of Georgia, born; died 1785.

1821—Laura Bridgman, the noted blind and deaf mute, born; died 1891.

1905—Henry Harland, American author living in England, died; born 1861.

ASTRONOMICAL EVENTS.
(From noon today to noon tomorrow.)
Sun sets 4:32, rises 7:18; moon rises 10:31 p. m.; planet Mercury visible; 5 a. m., eastern time, all Jupiter's bright satellites seen east of the planet.

The Danger of Criticism.
If you simply cannot help criticizing at least be careful in selecting your victim.

A magazine editor to whom O. Henry had promised a story many times without delivering it sat down one day and wrote him thus:

"My Dear O. Henry—If I do not receive that story from you by noon today I am going to put on my No. 11 shoes and come down and kick you down your own stairs. I never fail to keep my promises."

Whereupon O. Henry replied: "I, too, would keep my promises if I could do all my work with my feet."—Chicago Tribune.

The Battle of a Week.

The battle of a week was the great conflict at Tours in which Charles Martel overthrew the Saracens, A. D. 732. The members of the Saracen army are variously estimated at from 400,000 to 700,000, and the historians say that 375,000 were killed on the field. It is suspected that these figures are a gross exaggeration, but it is certain that few battles of history have been either so bloody or so decisive.

Doing His Best.

Small Boy (at depot)—Want your suit case carried, mister? Traveler—Why, my boy, you are too little to carry a heavy suit case. Small Boy—I know it, sir, but I thought perhaps you would give me a nickel for offering to carry it.—Chicago News.

NEW SMYRNA
FLORIDA
M. LEIDERSDORF
Resident Agent
Town and
Country
Property

NEW SMYRNA is situated fifteen miles south of Daytona and is an ideal spot reached from Daytona by a hard surface road winding through one of the most picturesque parts of Florida.

With its ancient ruins dating back to a time when the history of man runneth not, interlaced with wires of the modern telegraph and telephone, its miles of shell streets as hard and smooth as a floor and over-arched by hoary forest giants that grew in stately grandeur during the lapse of bygone centuries, New Smyrna is truly a place of romance and rest.

All nature here is very inviting to the tourist and pleasure-seeker. Here too is to be found the best fishing and hunting in the state of Florida.

The people are thrifty, the business men enterprising, and all unite in extending the welcome hand of hospitality to strangers. There are five church edifices for white people and an equal number for the colored population; the town has an excellent high school, a splendid public library, and up-to-date business houses.

There are any number of pretty homes for the permanent population, which numbers close to 2,000, and some very fine winter residences. There are good hotels and boarding houses where you can find accommodations to meet your requirements.

Adjoining New Smyrna is as fine a section of vegetable land as can be found anywhere. This land has been divided into small farms which can be bought at reasonable prices. Some of the finest celery grown in the state is raised on this land. All other vegetables grow in abundance, and here, too, is the home of the famous Indian River oranges.

**SOFTENING
 OF WATER.**
**MEETING HELD AT RIDGEWOOD
 HOTEL TUESDAY EVENING.**

NUMBER OF INTERESTED CITI-
 ZENS CALLED TOGETHER BY
 DESIRE TO FORWARD MOVE-
 MENT FOR SOFTENING CITY
 WATER.

A small but representative body of
 Daytona's citizens met at The Ridge-
 wood hotel Tuesday evening to dis-
 cuss ways and means for forwarding
 the movement of softening the city
 water.

The number included Mayor E. W.
 Greene, two members of the water
 board, Messrs. W. B. Chittenden and
 D. D. Rogers, and Geo. A. Main, su-
 perintendent of the water works.

C. M. Carrier was elected chair-
 man and Geo. A. Main, secretary of
 the meeting, which convened in the
 general parlor of the hotel.

The chairman called upon T. A.
 Snider to open the discussion, but
 Mr. Snider said he thought a state-
 ment of the conditions made by the
 superintendent of the water works
 would place the matter more clearly

before the meeting, so Mr. Main took
 the floor and made a very clear and
 definite statement as to the condi-
 tions prevailing, the approximate cost
 of installing and maintaining a water

softening plant and other interesting
 data, backed up by figures and state-
 ments by high authorities on water
 matters. Mr. Main was closely ques-
 tioned upon various details by several

of the gentlemen present and speak-
 ing of the plans used in softening
 said either the continuous or inter-
 mittent flows were good. The plant
 proposed for Daytona would, he
 said, be constructed of cement and
 practically permanent.

Many good reasons for softening
 the water were advanced by those
 present and there was a unanimous
 expression of belief in the benefits
 to be derived thereby.

D. D. Rogers when called upon in
 regard to the feasibility of the pro-
 cess for softening water said there
 was no element of experiment in it,
 that it was in practical use through-
 out the country and had been for
 years, the lime and soda plan being
 most generally adopted.

Mr. Main, asked as to the use of
 the water for drinking purposes,
 quoted W. F. Monfort, chemist of
 the water department of the city of
 St. Louis and a high authority on
 water matters. Mr. Monfort has
 written Mr. Main that, "If the sup-
 ply were used entirely for drinking
 purposes it would still be advisable
 to soften it."

The saving in soap, the longer life
 of plumbing and other benefits re-
 sulting from softening were dis-
 cussed. Mayor Greene spoke at
 some length, agreeing upon the ben-
 efits that would accrue from softened
 water but stating that the city was
 no in a condition financially to place
 the necessary \$2,500 at the disposal
 of the Board of Public Improvements
 to install the softening apparatus.

W. B. Chittenden said he believed
 the number of consumers of city
 water would be doubled by softening.
 Major Foster called attention to the
 fact that unusual conditions pre-
 vailed in Daytona in regard to water
 supply, any resident being able to
 have all he wanted for private use
 by putting down a well. He further
 stated that unless the water was soft-
 ened many of the present consumers
 would abandon it and return to the
 use of water from their own wells
 and this sentiment was concurred in
 by several present.

The matter of the F. E. C. Ry.
 making use of the water was also
 touched upon as it would likely fol-
 low upon the softening of the water.

The sentiment of the meeting, whi-
 not showing disapproval of the ac-
 tion of the water board and city
 council, so far as they had gone
 with the matter, was strongly in
 favor of pushing the plan for soft
 water to a successful conclusion as
 speedily as possible and to this end
 the chair appointed Major A. B. Fos-
 ter, T. A. Snider and G. B. Seaman
 a committee to circulate a petition
 among the citizens to be presented
 to the city council asking that the
 necessary steps be taken for this
 purpose.

For the benefit of the public an
 analysis of the water as it is now
 and as it will be after softening is
 appended:

Composition of Residues.		
	Now	After Treatment
Silica	1.29	0 grains gal.
Calcium Carbonate	15.10	1.16
Magnesium "	2.00	0
" Chloride	4.14	0
Sodium and Potas- sium Chlorides	22.23	27.42
	44.66	28.58

The amount of sodium chloride
 (salt) which attends the replacement
 of magnesium by sodium will not be
 noticeable. The southeast well as
 the water works is naturally com-
 paratively light in sodium chloride
 and the southwest well is even bet-
 ter in this respect.

The water discussion brought up
 the subject of fire protection for
 which the city water works was prin-
 cipally established and this led to
 the insurance question and before ad-
 journment a committee consisting of
 Geo. E. Sebring, T. F. Williams and
 S. H. Gove, was appointed by Chair-
 man Carrier to take up the subject
 of the establishment of a local fire
 insurance company. Mayor Greene
 spoke very forcibly upon this sub-
 ject saying the city was being robbed
 by the Southeastern Tariff Associa-
 tion and all appeals for a reduction
 of rates have been ignored and this
 opinion of the insurance situation
 here seemed to be shared by all
 present and the suggestion of a local
 company made by Geo. E. Sebring
 met with hearty approval.

The meeting was adjourned sub-
 ject to call of either or both commit-
 tees when ready to make reports.

 8-11

A FAIR DEALING SUCCESS.

The report of the Atlantic Coast
 Line Railway, showing net income
 for the year of nearly \$7,000,000
 and firmly establishing the stock on
 a six per cent basis is particularly
 gratifying as showing the success of
 what is a distinctly Southern sys-
 tem.

The Atlantic Coast Line has
 throughout its career, adopted a
 policy which shines by contrast with
 the history of other large systems.
 It has been built up, link by link,
 road by road, with constant regard,
 for initial stockholders. There has
 never been a period when the in-
 vestors in Coast Line securities have
 been "shaken out" for the sake of
 organization. The hand of the rail-
 road "wrecker" has never been visi-
 ble in its financial history. Its suc-
 cess has been bought at no expense
 of failure and losses to the public
 by which it was financed. Many a
 modest holder of stock in the origi-
 nal enterprise is now in comfortable
 circumstances as the result of a
 policy as beneficial as, unfortunately,
 it is strange.

Whatever may be said of the policy
 of railroad "systems," of the absorp-
 tion of competing lines, of the nec-
 essity for stricter regulation by law,
 these problems incidental to great
 enterprise cannot take from the A.
 C. L. the proud record of its fair
 dealing with its friends and stock-
 holders. Had other great systems
 been as free from scandal and double
 dealing, the agitation looking to the
 from the relationships of railroads
 and public had been spared a deal
 of the bitterness with which its prog-
 res has been marked—Richmond Vir-
 ginian.

Seabreeze and Daytona Beach are essentially summer and winter resorts and are making hundreds of new friends every year among those who desire to escape the discomforting extremes of heat and cold, and their hotels and boarding houses are now receiving splendid patronage from the most discriminating class of tourists.

The ocean itself, with its marvelous beach, hard as macadam and smooth as a floor, is the greatest attraction, although earth, air and sky seem to have entered into a combination to enhance its every charm. The beach is the famous automobile race course where every world's straight-away record has been made, and all these records it continues to hold without rivalry.

The beach has a width of 300 to 500 feet and can be used from two hours after until two hours before high tide, thus giving an average of seven or eight hours for automobilism some part of each day.

Seabreeze and Daytona Beach each have a permanent population of approximately 1500. Sanitary ordinances are strictly enforced, streets and sidewalks are well kept, and new streets are being opened as fast as the increasing population demands. Besides hotels and boarding houses there is ample cottage accommodation for all winter visitors in both towns.

All the attractiveness of Seabreeze applies to Daytona Beach, the two towns being so similarly situated. The development of Daytona Beach has been fully as phenomenal as its sister on the north, and each year there is a substantial growth. The great sand dunes have been leveled and handsome homes have been built for both winter and all-year-round occupancy.

Daytona, Fla.

I had often wondered where all the steel rails came from, and now I determined to go into the business of supplying them to railroad companies. Having learned through careful inquiry that nearly all of them were made in rolling mills, I persuaded the owner of a bankrupt iron foundry to convert it into a rolling mill. Then I went to a good reliable machinery man on the next block and told him to send me some of the very best rolling mill machinery that he had in his store.

Meanwhile my noble wife had not been idle, and by the time I was ready to begin operations she had induced several of the most brilliant women in society to agree to buy all their steel rails of us. Touched by her unselfish devotion, I clasped her in my arms, while the tears coursed down my cheeks.

Then I called on a railroad president, told him that I desired to become self supporting and asked him to buy some of my rails. He told me to deliver a basketful to his place of business every Saturday night.

Greatly elated over my prospects, I called together a number of workingmen whom I found idle on the streets and directed them to make some nice steel rails without delay and take them around to the kind railroad president.

Rejoicing at the prospect of steady employment, the workingmen hastened to obey, and the rails that they made under my direction proved so durable that in a very short time I had all the orders that I could fill.

I attribute much of my success to the fact that each rail is delivered to the customer tastefully wrapped in tissue paper fastened with pink ribbon.—Delineator.

Recent Inventions.

A machine to remove paper from a wall rapidly by steaming it is a recent invention.

A new fishing reel is given a gyratory motion to cross wind the line and prevent it tangling.

Weighing less than fifty pounds, an electrically driven machine has been invented for scrubbing floors.

A bookmark to grasp the edge of pages, invented by an Illinois man, has an adjustable pointer to mark any desired line or word.

The Old Story.

"Did Hardluck bear his misfortune like a man?"
"Exactly like one. He blamed it all on his wife."—Judge.

SO DOES AN AD. IN THIS PAPER!

And an ad. ATTRACTS
BUSINESS!
Let Us Boom Your Trade.

Science Siftings.

The University of Paris and the Pasteur Institute will jointly conduct a laboratory of radio-activity in that city.

Joseph Henry was the first to construct electromagnets in a useful form. In 1832, at the Albany academy, he succeeded in ringing a bell over a mile of wire.

By operating in a partial vacuum a German surgeon claims to avoid the danger of a patient's lungs collapsing from the pressure of the air when the chest or abdominal cavity is opened.

The Writers.

George W. Cable, the author, was once a reporter in New Orleans.

J. M. Barrie always likes to have a dictionary on the table when he is at work—not that he uses it very much, but its presence gives him "a feeling of confidence."

The late Florence Nightingale was a writer of excellent prose, her style being particularly lucid. She produced many books, pamphlets and papers dealing in practical fashion with the work of hospitals.

Drives Him to Drink.

"I'm so sorry about it, but my husband actually hates music."

"How strange?"

"Isn't it? His prejudice is so strong that he has to jump up and leave the theater whenever the orchestra is playing an entr'acte."—Cleveland Leader.

"Well, I looked her over. She had a wide, smooth, yellow face that didn't have a mark on it. I told her to repeat her story, and she went all over it again, telling how the man had slashed her face with that pair of scissors."

"But, madam, I said, 'there isn't a mark on your face.'"

"Marks!" said she indignantly. "Marks! What I care for marks, let me ask you dat? I got witnesses, I tell you."—New York Cor. Cincinnati Times-Star.

She Had Courage.

A self possessed young woman who knew no French strolled into one of the larger downtown cafes. She spoke to the waiter in that decisive tone which distinguishes the initiated and glanced over the French bill of fare with the nonchalant air of a Parisienne.

"I'll have," she began firmly as she plunged into the sea of French dishes—"I'll have—let me see. Oh, yes, I'll have some bisque tortoni, a sautina roll, pommes de terre and a little of that fromage. And, garcon, you might as well bring me a cup of coffee."

The waiter gasped. He started to speak, but the young woman from him with one of those icy stares peculiar to the thoroughly sophisticated.

And the order arrived—two kinds of ice, boiled potatoes and a piece of cheese. But she ate it as if she had been used to that sort of diet all her life.—Cleveland Plain Dealer.

Chimney Stacks Left Standing.

Some curious beliefs still linger in country parts of England. For instance, in Hertfordshire when ancient houses are destroyed the chimney stacks are left intact, the popular theory being that the houses are still in existence while these remain standing. This may be a survival of some ancient but now almost forgotten legal right.—London Chronicle.

No Weight Reduction in Prospect.

Mr. Nervee—Will you be mine?
Miss Plumpleigh—You ask so much.
Mr. Nervee—I know it, but you don't seem to be getting any smaller.—Boston Transcript.

People In the Intend Do Right.

By Attorney Judge ROBERT H. CARY, Head of the
United States Steel Corporation.

GREAT progress has been made in this country during the last decade in the direction of improving the methods and means of man.

It is not important to consider the merits or methods of individuals who have been prominent in the crusade for the betterment of conditions. Whether or not individual men and the public press have always been exactly right or fair or conservative in statement is of slight significance if the INTENTIONS TO BRING ABOUT THE DESIRED IMPROVEMENT HAVE BEEN GOOD.

On the whole, these criticisms and characterizations, even though not always fully warranted, have resulted in benefit; therefore they have been CREDITABLE AND MERITORIOUS. It is time for all of us to take a decided stand in favor of right conduct on the part of every one concerning the great economic questions which involve the LIFE AND HEALTH AND SAFETY AND HAPPINESS OF THE WHOLE PEOPLE.

With the firm belief in what I have suggested I still think there is some danger of going beyond the bounds of necessity and propriety and reason in our efforts to correct abuses and to establish conditions which we deem proper.

MANY OF US REALIZE IT IS TIME TO THOROUGHLY BUILD UP AND STEADFASTLY MAINTAIN A CONSTRUCTIVE POLICY IN THIS COUNTRY. WE SHOULD REMEMBER THAT THE LARGE MAJORITY OF THE PEOPLE BELIEVE IN THE RIGHT AND INTEND TO DO THE RIGHT; THAT THEY ARE NOT ALTOGETHER SELFISH NOR UNMINDFUL OF THE WELFARE OF OTHERS; THAT THEY LOVE THEIR COUNTRY AND WILL ENDEAVOR TO SERVE ITS BEST INTERESTS; THAT THEY ARE HONEST, EARNEST AND PATRIOTIC.

Problem Is Not Bad Boy, Rather the Modern City.

City Built For Economic Conveniences, Not
For Human Welfare

By ALLAN HOBEN, Economist, of Chicago

OUR problem is NOT THE BAD BOY, BUT RATHER THE MODERN CITY. The normal boy has COME HONESTLY BY HIS LOVE OF ADVENTURE and his gang instincts.

IT IS ONLY WHEN YOU TAKE THIS HEALTHY BIOLOGICAL PRODUCT AND SET HIM DOWN IN THE MIDST OF CITY RESTRICTIONS THAT SERIOUS TROUBLE ENSUES, FOR THE CITY HAS BEEN BUILT FOR ECONOMIC CONVENIENCE AND WITH LITTLE THOUGHT FOR HUMAN WELFARE.

The flat dwellers will not permit the noise or litter incident to such building as a boy likes, and he has little if any part in the labor of conducting the home. He loses DIGNITY as a helpful and necessary member of the family. He loses that LOYALTY which attaches to the old familiar places of boyhood experience and strengthens many a man today, making him more kind and consistent in his living by virtue of homestead memories.

That is to say that the bearing of industrial excess upon the boy tends to DRIVE HIM TO THE STREET and to produce a smart little chap in short order rather than a slowly ripening personality with the promise of greatness. The cost to society is shown not only by the eleven or twelve thousand children and youths under twenty years of age passing through our courts annually, but still more, if we could measure it, in the failure of those who never measure up to their possibilities because of this UNWISE SOCIAL TREATMENT EMBODIED IN THE CROWDING OF THE CITY, street education and early entrance into the factory.

Of all institutions which are trying to compensate for the social shortage of the home the PUBLIC SCHOOL is the most promising.

This is the great melting pot, the meeting ground of all Americans in the making. Of course it is unfair to expect the schools to make good all at once the loss involved in our economic haste, but the schools are TRAVELING IN THE RIGHT DIRECTION.

Ireland's Freedom Will Surely Come, and Then—

By Judge CHARLES S. CUTTING of Chicago.

IRELAND WILL BE ONE OF THE MOST PROSPEROUS AND IMPORTANT COUNTRIES IN THE WORLD UNDER JUSTIFIABLE CONDITIONS, AND THAT THESE WILL SURELY COME IS MY BELIEF.

The work being done to free the Irish and give them the land that was lost by their forefathers is about to be REALIZED.

The work of the Irish members of parliament has been unceasing and will bear fruit. The efforts of the Irish envoys Redmond, Devlin and O'Connor will bear fruit, and the sentiment of the entire civilized world will be with Ireland.

IRELAND IS SURE TO COME SOON. The Irish people are honest and fearless, and with Ireland's freedom and independence will be one of the MOST PROSPEROUS AND IMPORTANT COUNTRIES IN THE WORLD.

Chicago Has a Thermometer That Works For Charity at Dollar a Degree

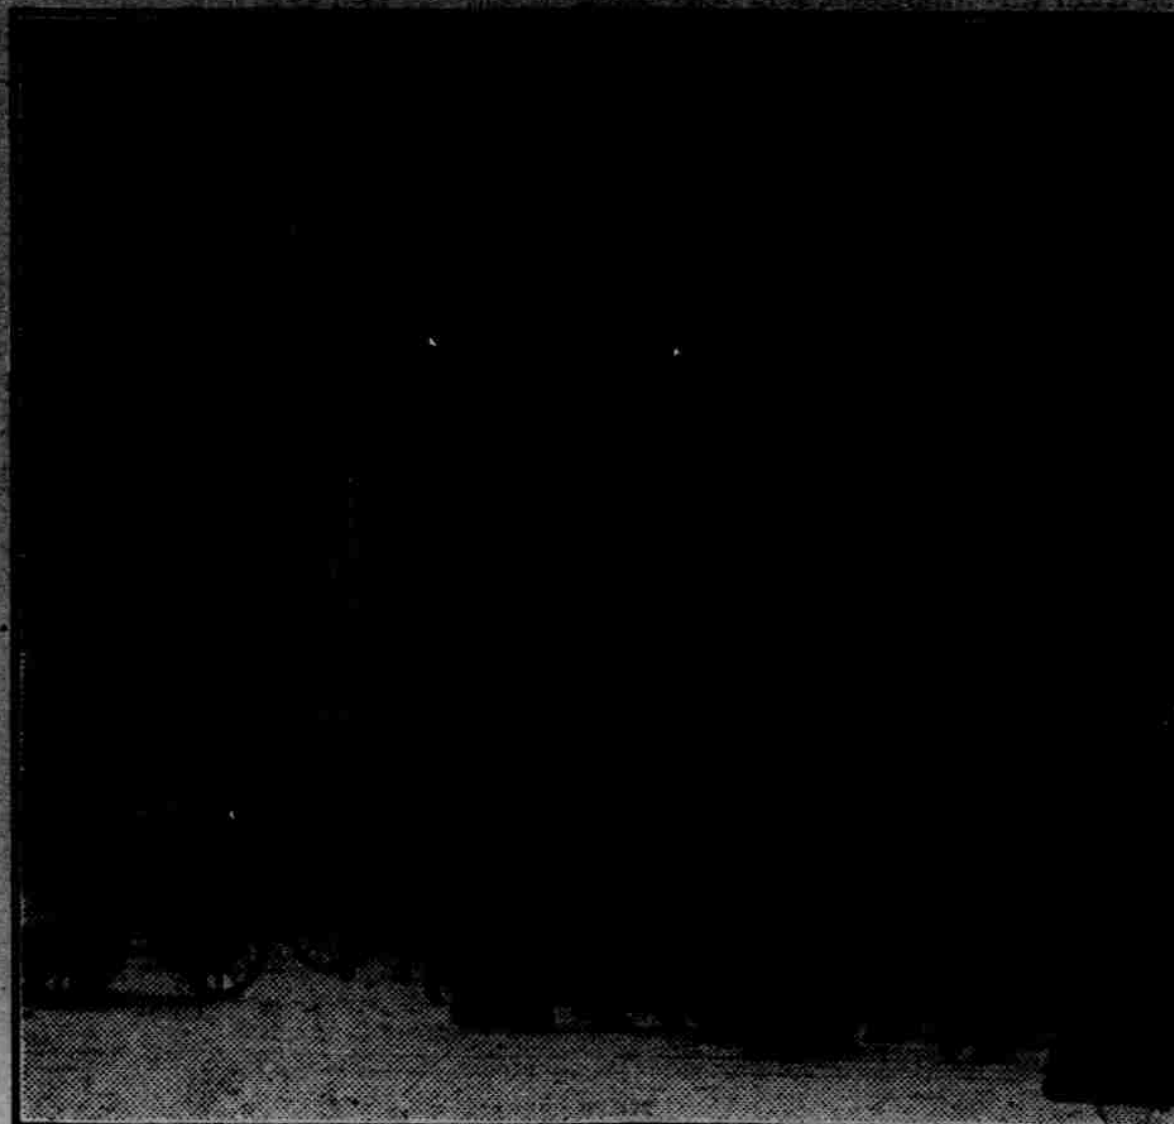

Photo by American Press Association.

Chicago decided she needed a lot of money to help out her poor and needy. Appeals have been made so many times that the churches decided they could not raise the public to the gift giving point unless some novel method was used. Chicagoans found that the people wanted a run for their money—a little bit of excitement and fun in giving away their money. So a giant thermometer was built and placed at State and Madison streets, the busiest corner in Chicago. Every dollar dropped in the slot raised the bulb a fraction of a degree. Degrees were marked off until \$100,000 was reached. Freezing came under \$10,000, cold under \$25,000. It became warm when it reached the \$75,000 point and boiling when at \$98,000. The people of Chicago became so anxious to see the thermometer at the boiling point that crowds gathered by the thousands and cheered the rising temperature. In two weeks the money required was raised.

BACHELOR'S CHRISTMAS EVE.

SANTA CLAUS peeped from the hearthstone, And I—1 peeped from the bed. "This call is quite queer! Pray, why are you here?" I summoned my courage and said: "If you've come here a-seeking we stockings and shoes I very much fear that your labor you'll lose. You've made a mistake in the matter of flues. Know, this is a bachelor's chimney."

Santa Claus stared from the hearthstone, And I—1 stared from my bed. His cheeks, they were pink, and he tipped me a wink.

"THIS IS A BACHELOR'S CHIMNEY."

As he quoth, with a wag of his head: "Good friend, don't ask me the reason I came. Just say if there's something you'd like—I'm the same. Come, up with your stocking. I vow it's a shame. That this is a bachelor's chimney!"

Santa Claus stood on the hearthstone, And I half rose from the bed, But I uttered no word, for my heart was stirred. And I thought of the years long sped. "Is there nothing you lack?" He spoke with glee. "I'm your fairy godfather, you know," said he. "In my pack are wonderful things—come see—"

Yes, 'e'en for a bachelor's chimney."

Santa Claus laughed on the hearthstone, But I—1 smiled not from my bed.

A great longing filled my soul and killed The joy that his kind face shed. "The gift I desire—I fear 'twill cost— Is the light of two eyes 'neath the marble mossed. Go bring me the love that I loved and lost!" And the night wind moaned in the chimney.

Santa Claus shrank at the hearthstone, And I sank back on my bed. And the embers fell like a ghostly knell To ashes gray and dead. "God pity the wish of your stricken soul!" He sighed, and I saw a teardrop roll. "The boon that you crave is beyond my dole."

And he fled with the wind in the chimney.

—Samuel Minturn Peck.

Christmas North and South. Washington celebrates Christmas in the northern style, a la New England—that is to say, by simply closing the stores and keeping quiet—but Alameda

dria, Va., celebrates in good old southern style, with rockets, roman candles, firecrackers, torpedoes, noise and general rejoicing hilarity.

Northern people often wonder why it is that the southerners celebrate Christmas like the Fourth of July and the latter holiday like Christmas, but the reason is not far to seek. The southern Christmas is the Christmas of old Merrie England, Germany and France before the reformation. According to the view of all good and orthodox Christians of that period, the birth of Christ was an event such as to cause delight and general rejoicing among men, and consequently they celebrated the Lord's birthday with the proper demonstrations of rejoicing. The Puritans were inclined to frown down religion of this sort, so that when America was settled by Cavalier and Puritan each celebrated the day in his own way.—Washington Post.

Appropriate Christmas Presents.
For your wife—A cookbook.
For your servant girl—A sealskin cloak.

For your rich relatives—Diamonds.
For your poor relatives—Nothing.
For your wife's relatives—Less than nothing; if you can obtain it.

For the guest within your gates—A gentle hint to go.
For your maiden aunt—A husband.
For your unmarried enemy—The maiden aunt aforesaid.

For your minister—A Bible.
For your son—A position downtown with some one who will make him earn his salt.
For your daughter—Some clothes to help her capture some unsuspecting man.

For some unsuspecting but otherwise worthy young man—The aforesaid daughter.—Yellow Book.

The Day That Comes but Once.
"Though Christmas comes but once a year, I wish it might be twice."
Said Willy Jones, the little dear,
"Because I think it's nice."
But papa, reading Santa's bill,
Said, "Once is once too often, Will."

Getting to It.
Anxious Mother—Has Mr. Bashful proposed yet? Daughter—Not exactly, but last evening when I was holding little Dick in my lap Mr. Bashful went to the piano and sang, "Would I Were a Boy Again."

Took His Advice.
"He told his wife she ought to take cooking lessons."
"Did she?"
"Well, yes. She sent for her mother to come and give her a three months' course."

Derby's Market Stone.
In Derby, England, there is a curious relic of the great plague of 1665. It stands in the arboretum gardens and is commonly called "the market stone." To avoid infection the country folk from the surrounding villages would leave their orders for anything they might want with the watchman, who used to go into the town, make the necessary purchases and deposit them on "the market stone."

No Hydrophobia In England.
Not a death from hydrophobia has been recorded in England since 1902.

The Sicilians.
The Sicilians are perhaps the most mixed people on earth. During the 3,000 years of its history Sicily has been occupied in turn by the following peoples: Phoenicians, Greeks, Carthaginians, Romans, Goths, Vandals, Saracens, Normans, Germans, Byzantines, Anjouans, Aragoneses, Spanish, French and English—fifteen nationalities—and the present day Sicilians have the blood of them all in their veins.
